

MLG Head Quarters Regiment (6 Tasks)

aka Combat Logistics Regiment Forward {CLR (FWD)}

6 tasks of MLG HQ Regiment which is also know as Combat Logistics Regiment Forward CLR(FWD): When you're on the board and you hear Head Quarters regiment, think of the **quarter** with George Washington's **Head**. #1 Command and Control=he was **Commander** In Chief #3 Communication points to his mouth because that's how you talk/communicate #4 food service points to his mouth because that's how you eat. There are three services #5 **Nucleus** staffing = the nucleus is the brain of the cell and it's pointing to his brain. #6 General Service = he was **General** George Washington before he was Commander in Chief. I skipped #2 because it's an inappropriate method we came up to remember it. for Services. If you think outside the box you can figure it out otherwise just remember there are three services. three divided by the six tasks equals the amount of services pointing to the mouth.
